MEDICAL BENEFITS

Administered by Blue Care Network & Blue Cross Blue Shield Of Michigan

Comprehensive and preventive healthcare coverage is important in protecting you and your family from the financial risks of unexpected illness and injury. A little prevention usually goes a long way—especially in healthcare. Routine exams and regular preventive care provide an inexpensive review of your health. Small problems can potentially develop into large expenses. By identifying the problems early, often they can be treated at little cost.

HOW THE PLANS WORK

Two plans use the [Blue Cross Blue Shield Of Michigan](#) and cover 100% of the cost for preventive care services like calendar year physicals and routine immunizations. The way you pay for care is different with each plan.

With the [HDHP](#), you pay the full negotiated cost for medical services and prescription drugs until you meet your calendar year deductible. If you meet the deductible, you and the plan share the costs (coinsurance) until you reach the calendar year out-of-pocket maximum. After that, the plan pays for 100% of your claims for the rest of the year. **Your paycheck deductions for this plan are lower than the PPO plan.**

The [PPO plan](#) has set copays for some services and a deductible and coinsurance for others. Copays do not apply toward your deductible, so you will pay copays until you reach your calendar year out-of-pocket maximum. **This plan has higher paycheck deductions than the HDHP.**

| | HDHP | PPO Plan |
|---------------------------------|---|---|
| Using the Plan | Pay less with each paycheck and more when you need care | Pay more with each paycheck and less when you need care |
| Spending Account Options | Health savings account (HSA) Dependent care FSA | Health care FSA Dependent care FSA |

You can save money on your healthcare and/or dependent day care expenses with an FSA. You set aside funds each pay period on a pretax basis and use them tax-free for qualified expenses. You pay no federal income or Social Security taxes on your contributions to an FSA. (That's where the savings comes in.) Your FSA contributions are deducted from your paycheck before taxes are withheld, so you save on income taxes and have more disposable income.

For DEPENDENT CARE FSA only, you can incur expenses through September 14, 2024 and must file claims by September 30, 2024

Voluntary Benefits

Our benefit plans are here to help you and your family live well-and stay well. But did you know that you can strengthen your coverage even further? It's true! Our voluntary benefits through Aflac are designed to complement your health care coverage and allow you to customize our benefits to you and your family's needs. The best part? Benefits from these plans are paid directly to you! Coverage is also available for your spouse and dependents.

You can enroll in these plans during Open Enrollment-they're completely voluntary, which means you are responsible for paying for coverage at affordable group rates.

ACCIDENT INSURANCE

Accident insurance can soften the financial impact of an accidental injury by paying a benefit to you to help cover the unexpected out-of-pocket costs related to treating your injuries. Some accidents, like breaking your leg, may seem straightforward: You visit the doctor, take an X-ray, put on a cast and rest up until you're healed. But in reality, treating a broken leg can cost up to \$7,500¹. And it's not only broken limbs - an average non-fatal injury could cost you \$6,620 in medical bills². When your medical bill arrives, you'll be relieved you have accident insurance on your side.

CRITICAL ILLNESS

Most of us don't have an extra \$7,000 ready to spend - even if we do, we don't want to use it all on medical expenses. Unfortunately, the average cost to treat a critical illness is just that: \$7,000³. But with critical illness insurance, you'll receive a lump-sum benefit if you are diagnosed with a covered condition that you can use however you would like, including to help pay for: treatment (e.g. experimental), prescriptions, travel, increased living expenses and more.

HOSPITAL INDEMNITY INSURANCE

When your loved one needs to be hospitalized, your family deserves to focus on their wellbeing-not the stress of the average three-day hospital stay, which can cost you \$30,000¹. Hospital indemnity insurance can help reduce costs by paying you or a covered dependent a benefit to help cover your deductible, coinsurance and other out-of-pocket costs due to a covered sickness or injury related hospitalization.
